

S3 Access Logs

- For audit purpose, you may want to log all access to S3 buckets
 - Any request made to S3, from any account, authorized or denied, will be logged into another S3 bucket
 - That data can be analyzed using data analysis tools...
 - The target logging bucket must be in the same AWS region
-
- The log format is at:
<https://docs.aws.amazon.com/AmazonS3/latest/dev/LogFormat.html>

S3 Access Logs: Warning

- Do not set your logging bucket to be the monitored bucket
- It will create a logging loop, and **your bucket will grow exponentially**

Do not try this at home 😊
