

Amazon S3 – Pre-Signed URLs

- Generate pre-signed URLs using the **S3 Console**, **AWS CLI** or **SDK**
- **URL Expiration**
 - **S3 Console** – 1 min up to 720 mins (12 hours)
 - **AWS CLI** – configure expiration with `--expires-in` parameter in seconds (default 3600 secs, max. 604800 secs ~ 168 hours)
- Users given a pre-signed URL inherit the permissions of the user that generated the URL for GET / PUT
- **Examples:**
 - Allow only logged-in users to download a premium video from your S3 bucket
 - Allow an ever-changing list of users to download files by generating URLs dynamically
 - Allow temporarily a user to upload a file to a precise location in your S3 bucket
